

Vistancia Constructora

Official Notice – August 27, 2026

We are writing to you today, August 27, 2026, to provide a transparent status update regarding the transition of our projects to Nakua Residences.

As of today, we are still awaiting the finalization of the process by World Activities. It appears that the developer is currently facing internal challenges related to the operational launch phase of their project, which is delaying the finalization and execution of the assignment of rights contract that binds us to them.

We want to reassure you on one essential point: **this delay is entirely beyond our control**. On our end, we have already completed all necessary steps, signed all required documents, and fulfilled all our obligations. Our file is fully ready.

We are also well aware that large-scale real estate projects of this magnitude, such as Nakua, often take longer to materialize in reality than initially planned on paper. This is a structural reality of major international developments that we must acknowledge. Consequently, **renewed patience is once again required**. Given the significant progress already made and the strategic nature of this transition, it is not feasible for us to pivot to alternative solutions at this stage. The only viable and rational path forward is to continue waiting for World Activities to finalize its internal procedures.

Furthermore, we wish to inform you that, following our latest meeting held today with World Activities, we were assured that these final details should not take more than one month to be resolved.

To better support you during this final stage, a dedicated contact person at World Activities is available to answer any questions or provide further information at the following number:

 **+1 (849) 517-4762**

We continue to monitor the file very closely, maintaining constant pressure to ensure the situation is definitively unblocked. We will not fail to inform you the moment a concrete advancement is confirmed.

We sincerely thank you for your understanding, resilience, and loyalty in the face of this situation, which is no longer in our hands.

Sincerely,

The Transition Team

Vistancia Constructora S.R.L.
